ASABE REPLACES NATIONAL COMBINE HARVESTER STANDARDS WITH ISO ADOPTIONS

ST JOSEPH, MICHIGAN—The American Society of Agricultural and Biological Engineers (ASABE) has identically adopted the latest versions of two ISO standards for combine harvester equipment. The adoptions are the culmination of a seven-year effort led by ASABE to ensure international standards keep pace with the design and manufacture of the high-capacity agricultural equipment required to meet increasing global demand for food production.

These two adoptions further harmonize national and international standardization, a goal that facilitates manufacturing, safety advancements, and product marketing worldwide:

The 2021 versions of ISO 6689 and ISO 8210 include technical content originally published in ANSI/ASAE S343.4 and ANSI/ASAE S396.3, respectively.

ASABE members with standards access and those with site-license privileges can access the standard’s scope electronically after October 3, 2022 on the ASABE online Technical Library at elibrary.asabe.org/. The standard can be purchased by contacting ASABE headquarters at OrderStandard@asabe.org.

ASABE is recognized worldwide as a standards developing organization for food, agricultural, and biological systems, with more than 280 standards currently in publication. Conformance to ASABE standards is voluntary, except where required by state, provincial, or other governmental requirements, and the documents are developed by consensus in
accordance with procedures approved by the American National Standards Institute. For information on this or any other ASABE standard, contact Scott Cedarquist at 269-932-7031, cedarq@asabe.org. A current listing of all ASABE standards projects can be found on the ASABE web site at www.asabe.org/projects.

ASABE is an international scientific and educational organization dedicated to the advancement of engineering applicable to agricultural, food, and biological systems. Further information on the Society can be obtained by contacting ASABE at (269) 429-0300, emailing hq@asabe.org or visiting www.asabe.org/.
