FOR IMMEDIATE RELEASE

March 27, 2026

ASABE PUBLISHES NEW STANDARD FOR WIND LOADS ON CIRCULAR GRAIN BINS  
ST JOSEPH, MICHIGAN— The American Society of Agricultural and Biological Engineers (ASABE) has published ANSI/ASABE S652, Wind Loads on Circular Corrugated Metal Grain Bins. This standard provides comprehensive wind loading guidance for the structural design of both individual grain bins—covering roofs and walls—and complex configurations involving groups of grain bins.

ASABE members with standards access and those with site-license privileges can access the full-text via electronic download on the ASABE online Technical Library at [elibrary.asabe.org/](http://elibrary.asabe.org/). Others can obtain a download for a fee directly from the library or by contacting ASABE headquarters at [OrderStandard@asabe.org](mailto:OrderStandard@asabe.org).

ASABE is recognized worldwide as a standards-developing organization for food, agricultural, and biological systems, with more than 280 standards currently in publication. Conformance to ASABE standards is voluntary, except where required by state, provincial, or other governmental requirements, and the documents are developed by consensus in accordance with procedures approved by the American National Standards Institute. For information on this or any other ASABE standard, contact Scott Cedarquist at 269-932-7031, [cedarq@asabe.org](mailto:cedarq@asabe.org). A current listing of all ASABE standards projects can be found on the ASABE web site at [www.asabe.org/projects](http://www.asabe.org/projects).

ASABE is an international scientific and educational organization dedicated to the advancement of engineering applicable to agricultural, food, and biological systems. Further information on the Society can be obtained by contacting ASABE at (269) 429-0300, emailing [hq@asabe.org](mailto:hq@asabe.org) or visiting [www.asabe.org/](http://www.asabe.org/). ###
